### **Jason Vanderstelt Receives Employee of the Quarter**

On Wednesday, February 24th, 2016, the Employee Representation Committee recognized Jason Vanderstelt as the Newaygo County Employee of the Quarter for the 4th quarter of 2015. Mr. Vanderstelt was selected because of his willingness to take on additional duties in the Treasurer's Department while a change in staffing took place. During this time, he helped process over one hundred board of review tax adjustments, balanced those adjustments and ensured that refunded amounts were correct and issued in a timely manner. While going through this time of change with his fellow staff, he did not complain about taking on these additional duties, rather he utilized his wit and uncanny ability to provide laughter and lighten the stressful situation.

His commitments outside of the workplace were noted as excellent reasons for his selection as the employee of the quarter. Particularly, his role in coaching for the Fremont youth leagues in both football and baseball, as well as serving on the board for the Fremont Youth Football program are outstanding reflections on the type of service the committee wishes to see exemplified by Newaygo County employees. The service he provides to the community in the Treasurer's Department, as well as his role as a coach, make him an asset to the Newaygo County team.

The Employee Representation Committee expressed their appreciation to Jason Vanderstelt at the February 24th, 2016, Board of Commissioners meeting by presenting him with a letter and publicly thanking him for his dedicated service.

The Employee of the Quarter designation was created to recognize and reward individuals for excellence in support of Newaygo County's mission and for performance above and beyond the normal expectations of their position and day-to-day job duties. We welcome the public to nominate deserving employees. Please share your experience with us by completing a Nomination Form located at <http://countyofnewaygo.com/HumanResources.aspx>.
